[SPECIAL DISPATCHES TO THE RECORD-UNION.]

THE NEW YORK STRIKE.

Statement by the Supreme Council of
the Railroad Employes.

TERRE HAUTE, August 25th.—At 6 o'clock this evening the following message was sent out by the Council of the Railroad Employes, signed by President Sargent and Secretary Sweeney, to the Board of Directors of the "The Supreme Council of the Railroad Employes," after carefully considering the strike in all its details, will note the result of our deliberations in tonight's dispatches, which it is hoped will meet with your approval. The Council was unanimous in considering your position and the position of the Executive Board now earnestly hopes that the right which you are championing in the great conflict between the Central and the Employes will finally prevail.

THE OFFICIAL STATEMENT.

TERRE HAUTE, August 25th.—The official statement of the Council given to the Associated Press representatives as follows: "To all Laboring Organizations.—Men and Brothers: On the night of August 7th a strike was begun on the New York Central and Hudson River Railroad, involving about eight hundred men in the employ of the same road who were members of the great labor organization known as the Knights of Labor. The reasons set forth by Powderly, the Chief Executive of the order, may be summarized as follows: The preposterous discharge of between fifty and sixty men, employees of the road and members of the Knights of Labor, without giving them any reason whatever for their discharge. Prior to the strike, the men involved sought, through representatives of the order, to have their grievances adjusted, but their appeals being disregarded, the strike was inaugurated. At this juncture Powderly, Grand Master Workman of the New York Central and Hudson River Railroad, and the Executive Board of the order, have endeavored upon the task of adjusting the difficulty and making such arrangements as would result in the resumption of work between the employees and officials of the road, but his efforts were unavailing. Powderly, comprehending the purpose of Walter Webb, Third Vice-President of the company, to make war upon the Knights of Labor, and ultimately upon all organized labor on his road, called a conference with the Supreme Council of the United Order of Railroad Employes. The request of Powderly was granted, to the extent that the Executive Board arrived this morning. Powderly and the General Executive Board will meet in joint session with District Assembly No. 1, at Buffalo, N. Y., on Monday, August 26th. The conference will be held at the Hotel Hamilton, Buffalo, N. Y., and will be attended by representatives of the Supreme Council; S. E. Wilkinson, Grand Master of the Brotherhood of Railroad Conductors; S. E. Wilkinson, Grand Master of the Brotherhood of Railway Trainmen, and Frank Sweeney, Grand Master of the Brotherhood of Railway Conductors. At the conference with Powderly at Buffalo the members of the Supreme Council, and the representatives of the order, by every consideration of fair and honorable treatment of labor organizations, should meet Powderly and adopt some just position relative to the grievance of the striking employees. This conclusion having been reached, the members of the Supreme Council, and the representatives of the order, have agreed to the request of Powderly, extended their journey to New York to afford such aid as was in their power to bring about a settlement between the New York Central and Hudson River Railroad and the Knights of Labor, and to the settlement of the existing difficulty, all of which were refused on the part of Webb. The members of the Supreme Council, while in Buffalo, and New York, had ample opportunities to thoroughly inform themselves upon all matters concerning the strike. They have seen the men who are the cause of the strike, and the situation, and comprehending the impending consequences to labor organizations, deemed it advisable to convene the Supreme Council for deliberation, and such conclusions as the facts should warrant. In response to the order of the Supreme Council, the members of the order, who were in Buffalo, and New York, have been directed to confer with Powderly on all matters pertaining to the strike, and Powderly, in turn, has been directed to confer with the members of the order on all matters pertaining to the strike. The conference then adjourned sine die.

At the afternoon conference twenty of the quietest and most reasonable of the members of the order, who were in Buffalo, and New York, have been directed to confer with Powderly on all matters pertaining to the strike, and Powderly, in turn, has been directed to confer with the members of the order on all matters pertaining to the strike. The conference then adjourned sine die.

At the afternoon conference twenty of the quietest and most reasonable of the members of the order, who were in Buffalo, and New York, have been directed to confer with Powderly on all matters pertaining to the strike, and Powderly, in turn, has been directed to confer with the members of the order on all matters pertaining to the strike. The conference then adjourned sine die.

At the afternoon conference twenty of the quietest and most reasonable of the members of the order, who were in Buffalo, and New York, have been directed to confer with Powderly on all matters pertaining to the strike, and Powderly, in turn, has been directed to confer with the members of the order on all matters pertaining to the strike. The conference then adjourned sine die.

The conference then adjourned sine die.

bring his corporation to the bar of justice, where his millions and the other millions of oppressed and oppressed potential in deciding questions of this kind.

In view of the foregoing facts the Supreme Council puts upon record its unanimous and official approval of the strike on the New York Central and Hudson River Railways for the cause set forth by Powderly and the efforts made by Powderly to bring the strike to an honorable termination. In this general expression of approval of the action of the Knights of Labor, the Supreme Council is unequivocally condemned.

The power of the Supreme Council in the manner of a strike is to be used to aid the Knights of Labor, through their representatives, to secure recognition of the power of the order, and to secure for the victims of autocrat power, a hearing, and to perform such other kindly offices as may be proper under circumstances demonstrating sympathy and good-will, thereby aiding the Knights of Labor to bring the strike to a successful termination.

At the afternoon conference twenty of the quietest and most reasonable of the members of the order, who were in Buffalo, and New York, have been directed to confer with Powderly on all matters pertaining to the strike, and Powderly, in turn, has been directed to confer with the members of the order on all matters pertaining to the strike. The conference then adjourned sine die.

Connecticut will be less than 200 bushels. As there is no Southern crop, the outlook is dismal enough for preservers.

Saratoga Races.
SARATOGA, August 25th.—The first race, five and one-half furlongs, Gold Step won, second, Andie third. Time, 1:14.
Second race, one and one-half miles, Hurdson River won, second, Andie third. Time, 1:14.
Third race, one mile, Cecil B. won, Satisfaction second, Outbound third. Time, 1:14.
Fourth race, six furlongs, Gypsy Queen won, Ban Chief second, Salute third. Time, 1:14.
Fifth race, one mile and seventy yards, Birthday won, Major Tom second, Letitia third. Time, 1:54.

CHICAGO, August 25th.—The striking engine and firemen at the stockyards returned to work this afternoon, the Switchmen's Association having accepted the modified terms offered by the strikers. To-night the switchmen, thinking the time had come to demand an increase of wages, and hoping to profit by the victory of the firemen and engine men, struck, and the stockyards railway is once more tied up.

A Long Tunnel Completed.
PORT HURON (Mich.), August 25th.—The Western Michigan tunnel, between Port Huron and Sarnia, Ontario, which has been under construction for some time, was completed this morning, and the first train of freight cars passed through it.

COLUMBIA, August 25th.—Senator Butler will attend the straight-out Democratic convention to-morrow as a peace-maker. The report is that he will endeavor to prevent a split in the South Carolina Democratic party by proposing that the delegates seek to amicably adjust the difficulty, at his promise that the Legislature will meet at Hampton and Butler in the Senate.

El Paso (Texas), August 25th.—Between twenty-five and thirty houses were blown away last evening in Juarez, by a cyclone, and many persons were killed.

New York, August 25th.—The Journal says that a rumor prevails that Rev. Dr. Richard L. Burwell, the friend of Dr. McJannet, has been removed from the exercise of the functions as a Catholic priest.

BRAIN GRAFTING.
Dr. Thompson Describes a Successful and Interesting Experiment.

A paper on the above subject by W. G. Thompson, M. D., appeared in a recent number of the *New York Medical Journal*. Attempts have been made to graft nearly all the different tissues of the body. Skin, bone, teeth, muscle, nerves, glands, eyes, mucous membranes, etc., have all been grafted with more or less success, but successful brain grafting has not heretofore been performed. With the exception of skin grafting, and possibly bone grafting, no other grafting experiments have been of little practical value. They are, however, of great scientific interest in demonstrating the relative vitality of different tissues, and the histological changes which accompany degenerative processes. The laws of atrophy and final disappearance of organs, so ably advocated by Darwin, are equally striking with regard to individual tissues and cells, and it is a well recognized fact that the "higher" the original development of a tissue or cell has been, the more it is liable to atrophy, or to be replaced by a lower type, or the more profoundly it is affected by alterations in environment or nutrition, so as to degenerate completely, or to be replaced by some form of tissue of lower vitality. The result of nerve grafting and of nerve sutures after complete section have varied greatly in the hands of different operators, but the most encouraging failures, there is no doubt that in man, as well as in the lower animals, nerve fibers may reunite when severed, even after secondary degeneration has occurred, and they exhibit restoration of function. For this to occur, however, the nerves must be in communication with the rest of the nervous system, and the grafting done in a favorable case. It occurred to Dr. Thompson recently, while studying cerebral localization in the lower animals, that it would be well to try to graft a piece of brain tissue from one side of a dog's brain to the other, or from one animal's brain into another, and study the results. The course he had no expectation of being able to do this, but the function by the operation, but the question of vitality of the brain tissue, and the course of its degeneration is a subject which is of very wide interest, and the experiments were preliminary, made in order to ascertain whether the transplanted brain would be immediately absorbed or would slough away.

No microscopic examination was made in connection with these experiments, as it was intended only to determine the possibility of transplanted tissue adhering, and the results of the operation. The experiments were preliminary, made in order to ascertain whether the transplanted brain would be immediately absorbed or would slough away.
